Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 21 January 2009.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-20 and 25-32 is/are pending in the application.

DETAILED ACTION

This Office Action is in response to Applicant's Remarks and Amendments filed July 31, 2009.

Claims 1-20 and 25-32 are pending and herein considered.

Response to Arguments

Applicant's claim amendments serve to overcome the Examiner's previously set forth 35 USC 112 and 101 rejections. Accordingly, those rejections are withdrawn.

However, it is in response to Applicant's remarks and amendments that the Examiner presents the following series of 35 USC 112 rejections.

It is in view of these rejections that the Examiner has withdrawn her previous 35 USC 102 rejection insofar as the issues presented below serve to prevent her from applying prior art to Applicant's claims in their current state.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-20 and 25-32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Applicant's most recent set of remarks and amendments are directed towards distinguishing his invention from that of Aziz because Aziz fails to teach or suggest "the

previously translated address being extracted from the packet header information, restored into an address from which the previously translated address was translated, and placed back into the packet header information of the data packet." Applicant draws attention to Aziz' use of an appended IP header stating that Aziz fails to teach the abovementioned limitations because he decrypts the entire packet as one without regard to any "predetermined portions of packet header information of a data packet" and because the information eventually returned to the header is not in the header at present, but rather in the body of the packet. While the Examiner neither agrees nor disagrees entirely with Applicant's characterization of the prior art reference, she will admit that Aziz does in fact use an appended header in order to account for the fact that the original header has been encrypted, and as such, a network would be ill fitted to properly deal with such a cryptic packet. In Applicant's attempts to distinguish over the reference, he has raised serious doubt as to how his invention is capable of transmitting packets in which the address information in the IP header is encrypted and yet the necessary network elements are able to ascertain their values as if they were not. Insofar as she is unable to comprehend how it is that a router, bridge, or other network element could potentially transmit a packet where the destination and source addresses were encrypted, she is incapable of determining the scope of Applicant's invention for purposes of a prior art search.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
